CENTRAL ATOLLS ROUTE

On board MALDIVES BLUE FORCE ONE (considered as one of the best diving Liveaboard in the world) we propose you the CENTRAL ATOLLS ROUTE ffrom January, 15th to 22nd & 22nd to 29th, 2022

This is the best well-known route in Maldives but at the same time the one that offers the best and most varied dives. We do this route almost all year long (from August to May) week after week. Thanks to that, we know every detail, atoll, passage, thilas and where and when it is convenient to approach every dive zone.

It is a 7-night route including 6-dive days on board with embarkation and disembarkation at Male Airport (18 dives with 2-night dives). The habitual itinerary goes by North and South Male Atolls, Vaavu and Ari.

The aim is to find pelagic life, grey sharks, white-tips sharks, black-tip sharks, eagle rays, and schools of colorful fishes, morays, tuna fish, groupers, turtles, and in some cases, hammerheads and dolphins.

Drifting dives in the channel, thilas (submerged coral "seamounts"), cleaning stations where big mantas gather to deworm themselves, will search for the whale shark (and if we are lucky will snorkel and even dive with the biggest fish). We will dive into a full-of-life wreck. Besides, there will be two spectacular night dives, one with mantas and the other with dozens of nurse sharks.

Desert islands are also visited to discover and enjoy a bit more of the country and if the weather allows to do so we will even BBQ on a desert beach.

During this week, we will be able to discover and enjoy the new semi-closed rebreather HORIZON SCR from MARES.

Although if you are longing to relax, you can enjoy the solarium, the jacuzzi on board, kayak, Paddle SUP...

All this will make this cruise an excellent and unforgettable Great Dive Travel.
